

# Beast From the Past

Chords: vers: Em C chorus: G Em C G G Em C G D Em

1.

Down in the basement there's a beast from the past  
Swimming around having such a blast  
Til death do us part  
I'm gonna keep this key  
He said just wait till you die and you will see  
I'm gonna make you cry  
I'm gonna make it last  
I'm gonna hold you like my own little baby  
Far far away from the rest

2.

In a beer in a bar in a city far away  
I lost my mind so I couldn't stay  
I went down to the river and I jumped into the sea  
When I came up to the surface my mind was with me

Ref

So here I am  
Say hello to your friend  
I'm down on my knees  
Begging please  
Take a load of me  
Take everything you see  
My love is true  
My love is blue

3.

I went down in the basement for a bottle of wine  
When I came up again I felt so fine  
I danced with a strange and I climbed up in a tree  
The leaves they where dancing in the wind with me  
Then a bird came along and I sang a melody  
The bird whistled back and we where both free  
The the birds felt like flying  
And since my wings are broke  
I climbed right down into a bottle of coke

Ref

So here I am  
Say hello to your friend  
I'm down on my knees  
Begging please  
Take a load of me  
Take everything you see  
My love is true  
My love is blue

4.

I went into a yellow and came out of a green  
Pink turned into purple, the prettiest thing I've ever seen  
Black turned black and blue stayed blue  
When I came out the sky was blue too

So I went down in the basement where the beast from the past  
Is swimming around having such a blast  
Til death do us part  
I'm gonna keep this key  
He said just wait till you die and you will see  
I'm gonna make you cry  
I'm gonna make it last  
I'm gonna hold you like my own little baby  
Far far away from the rest
